

BIOTECHNO LABS

Research is creating new knowledge
ISO 9001:2015 Certified Company
www.biotechnolabs.com

We, Biotechno Labs based in New Delhi, India are committed to being the most reliable supplier for life science research products in the entire Indian market. Our motive is to provide the highest quality products, expert technical support and relevant up-to-date accurate data in the research industry while ensuring that they are both simple to use and reliable in their performance.

SARS COV-2 Related Products

To support research of this novel Coronavirus, Biotechno Labs has developed an expansive portfolio with the latest Proteins, Assay Kits, Cell Lines, Lentiviruses, and Screening tools. These products accelerate COVID-19 research through identifying neutralizing antibodies of the Spike-ACE2 interaction, conducting small molecule screening of enzymes involved in viral entry and propagation, and the qualitative detection of human IgG antibodies in serum.
