

BTL Biotechno Labs Pvt. Ltd. **Authorized Channel Partner of** **Zyagen**

Your Innovative Source of Life Science Products and Services

Zyagen, a biotechnology firm located in San Diego, California, USA, is a leading provider of life science products and services with a focus on gene expression since 2000. **Zyagen** develops, manufactures, and sells quality life science products, biochemicals, and reagents for the cellular localization, expression, and quantitative analysis of genes and their protein products. **Zyagen** also offers custom research services in histology and molecular biology for pharmaceutical, biotechnology, federal, and academic research institutes worldwide. They are continually improving and expanding our product and service lines to meet the growing demand of scientists in the biomedical and life science research communities for high-throughput gene expression profiling. Their goal is to simplify, improve, and accelerate the research speed of the scientists and expand their research capabilities in making discoveries that improve the human condition by providing the highest standard of quality research products and services at a competitive price. **BTL Biotechno Labs Pvt. Ltd.** is the distributor of **Zyagen** in **India**. We are committed to being the most reliable supplier for life science research products in the entire Indian market and serving the scientific community by providing innovative, reliable, and high-quality research products at an affordable price.

As a distributor of **Zyagen** in **India**, we provide their complete product range, including RNA products, genomic DNA products, tissue sections, western and northern blot products, tissue lysates, antibodies, cDNA products, kits, reagents, and biochemicals, to the scientific community at the best price.
